

# Belgium Imperfs & Belgium Proofs

## Imperforates

For every modern stamp it issues, Belgium provides the philatelic world with some of the most seldom seen specialized material. For most 20th Century issues and almost all from 1930 to date, IMPERFORATES have been prepared in the original colors and distributed only to high government officials. From 1929-1970 only 200-400 of each were printed. From 1971 to date, 1,000 of each have been printed. However, only 240 of each of the Parcel Post Imperforates were ever printed!

Stamps up to 1950 are sold gummed or ungummed, as issued, sometimes with a script "Specimen" overprint. After 1950, all Belgium Imperfs were issued ungummed with an individual number printed on the reverse of each stamp.\* Each of these Belgium Imperfs is then "unique"!

Since Belgium Imperfs are presented only to high government officials, most of whom retain the stamps for their own collections, there is no direct distribution to the philatelic marketplace. Sometimes it takes years before these items find their way onto the market, making them scarce and seldom offered.

We are proud to be able to offer to you one of the largest stocks of these elusive and desirable items. We can provide most issues in singles, pairs and blocks of 4. We have never seen multiples larger than blocks of 4!

## Minister Proofs in Black

Also printed for almost all issues since 1929 are MINISTER PROOFS IN BLACK. Each of these proofs is printed individually from the original plates in black on special 14cm by 14cm glossy paper, with a raised Ministry of Posts seal in the margin. For earlier issues only 18 of these handsomely printed proofs were produced while today the largest printings do not exceed 45. Only the highest government officials receive these proofs, making them truly very rare. Most issues of the Minister Proofs in Black come to the market only once every few years and we are pleased to offer you a selection of over 1000 different from our Price List.

## \*Printing Details for Belgium Imperfs

Issues through the 1930's were issued with gum and are sold hinged or NH. All are NH unless "H= (Hinged)" is noted., at the same price, as available. Later issues are without gum. Issues through February 1951 are handstamped "Specimen" on the face and are indicated by (S).

Issues from the late 1930's to date generally have a control number on the reverse, with the exception of those from the late 1940's. Issues to March 1951 have handstamped control numbers, while later issues have printed numbers.

Belgium Imperfs are printed from the original stamp printing plates in the issued colors.

ALL PRICES FOR IMPERFS ARE FOR SINGLES. PAIRS AND BLOCKS ARE OFTEN AVAILABLE AT 2X OR 4X THE SINGLE PRICE PLEASE ASK!
