

AUSTRIAN BLACK PRINTS

Black Prints are un gummed imperforated proofs printed in black from the original printing plates and distributed by the Government for publicity purposes. Each Black Print (or set) is affixed to a folder (approximately 20cm x 30cm) varying in length from one to twenty pages. Written in German, it gives all design and printing specifications and details of the purpose of the issue. Separate English translations are provided when available. Almost all issues 1946 to 2001 were issued in this form. Quantities printed are very small, as low as 500, and today approximately 2600 are printed. They are widely dispersed and we have only a few of each issue. Other Black Prints that are not listed may be available, please ask.

In 2002, the format for the Austrian Black Prints leaflets was changed. For 2002 and 2003 Black prints in this time period are affixed on a single sheet of heavy stock, approximately 14.7 x 21 cm. Printing is in color with a full color copy of the stamp issue next to the black print. The information for the issue is written in both German and English. Larger issues such as Souvenir Sheets are presented in folders of the same size with the black prints attached on the reverse and the issue information inside. In 2004, all issues were printed in folders of the same size. The information for the issue was printed on the two inside pages in German, English and French.
