## Belgium Imperfs & Minister Proofs in Black

*Imperforates - Belgium imperfs are prepared in the original colors and distributed only to high government officials. Most are retained for their own collections so there is no direct distribution to the philatelic marketplace. Sometimes it takes years before these items find their way onto the market, making them scarce and seldom offered.*

**Minister Proofs in Black** - Each of these proofs is printed individually from the original plates in black on special glossy paper with a raised Ministry of Posts seal in the margin. For earlier issues only 18 of these handsomely printed proofs were produced while today the largest printings do not exceed 45. Only the highest government officials receive these proofs, making them very rare.
